TECHNICAL PROJECTS

PDF Chatbot RAG System | *Python, Streamlit, LLMs*

- Live Link: [pdf-chatbot-rag-system-batuhanyilmaz.streamlit.app](#)
- Developed a functional Retrieval-Augmented Generation (RAG) system allowing users to upload PDF documents and ask questions based on the content.
- Implemented vector search for accurate data retrieval and reduced AI hallucinations.

Deep Learning Portfolio | *Web Development, AI*

- Website: [deeplearningwithbatuhanyilmaz.web.app](#)
- A personal web platform showcasing deep learning experiments and technical documentation.

SKILLS

- AI & Machine Learning: RAG Systems, Deep Learning, LLM Integration.
- Development: Python, Streamlit, Web Hosting (Firebase/Streamlit Cloud).
- Tools: GitHub, Version Control.
